

Mission Statement

The Women's Evening Section is open to female curlers of all skill levels. Our mission is to provide a balance of competition, skill development and social camaraderie for all members of the section.

We curl on Wednesday evening, with games alternating between 7 and 9:00 p.m. You may join as a full or partial team, or as an individual (for individual entrants, we will make every effort to place you on a team but placement is not guaranteed). The Section can accommodate 32 teams.

Teams will be allocated to flights (2 or more depending on the number of teams) so that teams at similar skill levels will play against each other. Based on the results of each draw, teams will be moved as necessary to another flight for the next draw.

The Section is committed to providing instruction and support to all its members; as such, we host several clinics throughout the year for both novices and those with more experience.

The Women's Evening Section hosts two bonspiels during the year. Our "Santa Spiel" is open to members and their guests (even those with no prior curling experience). In late January/early February, we host a team entry bonspiel that is a TCA Mellita Bonspiel of Champions qualifier.
